

Assignment 1

Description: An image gallery

This image gallery should contain at least 12 images. Your site should include:

- A 'grid' of thumbnails, with each one serving as a link to a larger view of the same image.
- All images should display without distortion.
- 12 Individual pages with images at full size resolution. Each page should allow for navigation forward and backward in the gallery, and link back to the grid page.
- All local linking

Tips:

- Research the way different designers have utilized 'grid' layouts. Make informed decisions
- Think about your image collection. Is it cohesive? Will they lay out well?

Schedule:

1/24 & 1/25– Drafts in Adobe XD due. Be prepared to present in class

- This draft should be only 2 pages – 1 grid, 1 individual page

1/31 & 2/1 – Draft revisions due based on critique (XD or HTML)

- This draft should be all 13 pages

2/7 & 2/8- Final version (in HTML) due

All elements of this project must have a link posted to wordpress. Do not update previous links, maintain the record of work.
