

# Assignment 1

**Description:** An image gallery

This image gallery should contain at least 12 images. Your site should include:

- A 'grid' of thumbnails, with each one serving as a link to a larger view of the same image.
- 12 Individual pages with images at full size resolution. Each page should allow for navigation forward and backward in the gallery, and link back to the grid page.
- Tables utilized for layout.

Tips: Research the way different designers have utilized 'grid' layouts. Make informed decisions

## Grading Breakdown

**At least 12 images, all displayed** /2

Images display properly, without distortion

**Grid page** /3

Grid page well designed. Consistent image layout Design elements considered and well-utilized

**Individual pages** /3

12 pages all display with working links. Consistent design across pages, easy to understand navigation

**HTML nesting used appropriately** /2

Are your tags closed? Are they nested correctly?

Total /10
