

Assignment 2

Description: Website for an artist

Using your assigned artist, build a site including:

- Biography/about the artist
- Works (ordered by year)
- Picture Gallery
- Links to other relevant sites

All of these sections should have a consistent design and be easily navigable. Your design should be based on the work of your assigned animator.

Use CSS to manage your style. You should consider the following elements in your design:

- Spacing and effective use of screen space
- Color and value
- Texture and depth
- Direction
- Text (fonts, headings, links)

Photoshop Draft due on February 10th
Project due (posted) on February 17th

Grading Breakdown:

Design Draft	/2
Substantial, addressing all necessary elements cohesively	
4 sections	/4
All 4 pages created, links between them working, consistent style	
Navigation	/2
Consistent, easily understandable	
CSS	/2
Effective use of CSS for all styling	
Total	/10
