

Canvas Drawing

Do the following tutorials:

HTML Canvas Object

<http://www.html5canvastutorials.com/tutorials/html5-canvas-element/>

Drawing lines

<https://developer.mozilla.org/en-US/docs/Web/API/CanvasRenderingContext2D/lineTo>

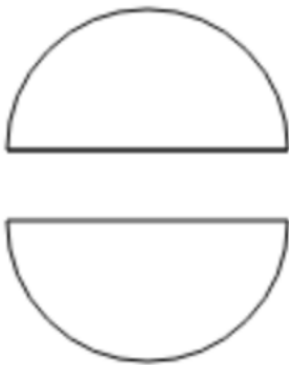

Drawing Arcs

<https://owlcation.com/stem/HTML5-Tutorial-Drawing-Circles-and-Arcs>

You may also want to read up on Radians

<https://www.mathsisfun.com/geometry/radians.html>

Then create your own page and draw the following shape:

Post the final version to your Javascript Experiments post on Wordpress
